Also, changes for cartview:

| Select All | Accession | Name | Taxonomy | Amount | Form | Genebank | Improvement Status | |
|---|---|---|---|---|---|---|---|---|
| ☐ | PI 612951 | AG2601 | *Glycine max* (L.) Merr. | 50 count | Seed | SOY | Genetically Engineered | ✖ Remove |

Change for order page

| Select All | Accession | Name | Taxonomy | Amount | Form | Genebank | Improvement Status | Restrictions | Comment | |
|---|---|---|---|---|---|---|---|---|---|---|
| ☐ | PI 612951 | AG2601 | *Glycine max* (L.) Merr. | 50 count | Seed | SOY | Genetically Engineered | MTA-SMTA | | ✖ Remove |

Email will have 2 columns and say Genetically Engineered (not just GEO) like above and I'm working on order history to look the same.

I had to make the text size a little smaller for the above so it all fit. It's not too bad.
None of this is on dev yet, as I want to finish all parts of the GEO process first. I'll then make sure other MTAs show, and when Gayle says all MTAs need to go through the same SMTA process, I'll work on that. If there's more than MTA, do they have to accept both? Hope this is the important stuff Gary mentioned that I'm supposed to be working on yesterday!

Kay

Ticket - 2969 has been completed - added Order request action of GEO accepted
Once Ticket 2967 for the OW side is completed, the PW side of sending the

Completion and having it show up in the order history needs to be completed.
The steps in the process:
1. requestor accepts that there are order items that are a product of GEO.
2. That acceptance is recorded in the order request action dataview (thus the OW)
3. The action is displayed in the requestor's order history.
