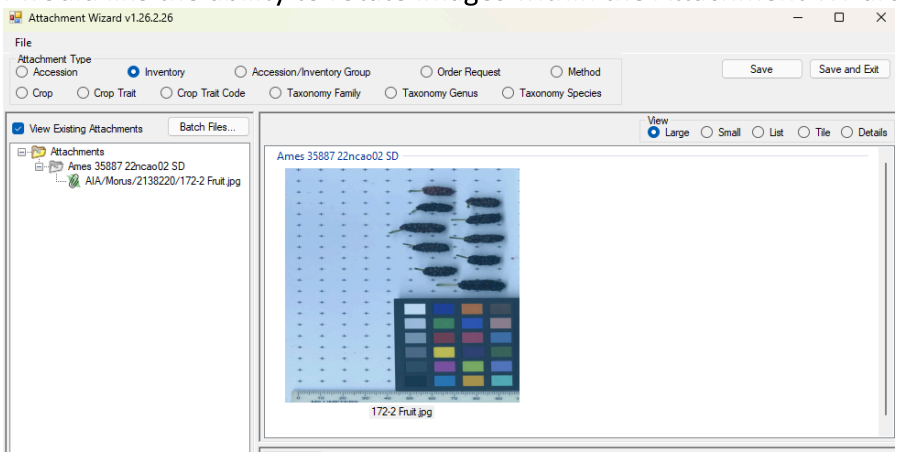
Trac ticket submission for Pete

From Sonner, Ashley - REE-ARS <ashley.sonner@usda.gov>
Date Thu 3/5/2026 8:09 AM
To Burke, Lisa - REE-ARS <lisa.burke@usda.gov>

Lisa,

Could you please submit a trac ticket for me? This is in regards to the Attachment Wizard and it is for Pete.

I would like the ability to rotate images within the Attachment Wizard. See below for example.



The image was uploaded incorrectly in 2022. Currently, I find the image on the NC7 servers, delete the image, and reload the image. Future, I would be able to rotate the image in the Attachment Wizard without having to find the image on the servers. I want the ability to do this regardless if the image has been uploaded or in the process of being uploaded.

Let me know if you have questions.

Thank you,

Ashley Sonner
