Subject: How to handle multiple orders from the same person in PW
Date: Wednesday, August 07, 2013 8:55:49 AM
Attachments: image001.png

All but one of these orders is from the same requestor – how can PW handle a series of orders from the same requestor that are submitted over a short period of time? Here at NC7 we e-mail the requestor and ask them to e-mail us when they are done making selections so that we save resources by combining all the orders into one and shipping once. Could there be an ADD TO PERVIOUS ORDER button? Of course, that might only work for requestors who have a login.
