3. PI 610996 - AJC-257 - W6 - Seed - *Elymus gmelinii* (Trin.) Tzvelev

---

Shipping times for orders destined to international locations are dependent on phytosanitary regulations of the importing country. Delays in shipping reflect import permit interpretation, pathogen testing, seed treatment requirements, phytosanitary certificate issuance and shipping courier delays. Domestic orders may be delayed pending state and local phytosanitary regulation typically related to vegetative materials such as plants and cuttings.
