Would you create a TRAC ticket for this (for PW part, i.e. respect acc action date format). I will make changes and mark it then. Thanks, --Laura

Subject: RE: ACC ACTION TABLE

Lisa:

In PW, this is currently simply display date in the `dd-MMM-yyyy` format.

I could change that to honor the format of date_code.

Thanks,
Laura

What can we do to “respect” the format?

Lisa,

I changed the title of the action as per Jeff. Both started_date and completed_date have a format column so if 'yyyy' is the format then the CT and PW should be able to respect that format (even though the raw data will be a full date internally). It looks like they are using the raw date rather than applying the format. -q

Question from Jeff about the display of the date. So, in the accession action record, he wants just the year displayed. See below. But in the ST and on the PW the display has 01/01/2016. Can the system be forced to only show the year. In his case, the year represents the trial so a specific date is not wanted just the year.

Also, Quinn, could you change the wording that he has requested? Since he is the only NPGS person using this accessions action, it's his call for the wording.

Subject: ACC ACTION TABLE

Below is screen shots of curator tool and search tool looking at Acc Action Table showing how the search tool does not recognize “yyyy”. It creates it as “01/01/yyyy”. Then on the PW it shows the 01/01/yyyy.

Can you please modify the Action Name for “Description of NC7 ornamental trials” to “NC-7 Regional Ornamental Plant Trials Distribution”?

I’d like to start providing active links in this table specifically for the plant descriptions for each year. I might try one with Ames 27768. I’ll see what might work and keep you posted.

Thanks.
